Renewed Petition under 37 C.F.R. 1.137**Mail Stop PETITIONS**

Commissioner for Patents
Post Office Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicants hereby submit this Renewed Petition under 37 C.F.R. 1.137 responsive to the Decision on Petition Under 37 C.F.R. 1.137(a)—Copy Date Mailed: February 28, 2007, for which a response is due April 28, 2007 by a shortened statutory period for reply set to expire two [2] months from the mailing date of the Decision.

Senior Petitions Attorney states that the previously filed Petition for Revival of an Application for Patent Abandoned Unavoidably Under 37 CFR 1.137(a)—filed January 17, 2006—lacks a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition was unavoidable.

Applicants respectfully submit that the previously filed Petition did set forth a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition was unavoidable. However, to explicitly respond to Senior Petitions

PATENT APPLICATION
Serial Number: 09/535,831
Attorney Docket Number: SYN 1756

Attorney's comments, Applicants hereby amend page 4, paragraph 6 of the afore-mentioned
Petition for Revival of an Application for Patent Abandoned Unavoidably Under 37 CFR
1.137(a):

RECEIVED
CENTRAL FAX CENTER

MAR 26 2007

Applicants respectfully request that the present application be revived as it was unavoidably abandoned. Additionally, Applicants respectfully submit that the prosecution of the present application has been entirely unavoidably delayed through no fault of their own or of their representatives. The entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition was unavoidable. and Applicants respectfully request a withdrawal of the Final Rejection; Reconsideration of the present application—resulting in a Notice of Allowance or Allowability of the application, including all pending claims; and refund of the fee associated with this Petition.

Senior Petitions Attorney states, "Although applicants may have been in contact with the USPTO via telephone, applicants did not submit any written reply or other paper in this application to advance its prosecution. It appears that applicants waited almost two years for a decision on the petition under 37 CFR 1.324 in Patent No. 6,272,131 and did not prosecute this application during this time." Applicants respectfully submit that this statement is erroneous.

Applicants did submit, in writing, requests for status on October 7, 2005 and December 14, 2005 of the afore-mentioned Petition under 37 CFR 1.324 for Patent No. 6,272,131. In response to Applicants' request for status, Applicants' Attorney received a postcard—date-stamped January 6, 2006—from the U.S.P.T.O.; stating that a request for a Certificate of Correction had been received for Patent No. 6,272,131. Applicants' requests for status are herewith attached as **Exhibit A** (12 pages). The postcard from the U.S.P.T.O. is herewith attached as **Exhibit B** (1 page).

Additionally, Applicants' continued to prosecute Patent No. 6,272,131 by filing a Substitute New Declaration on February 3, 2006—attached as **Exhibit C** (5 pages). On November 10, 2006, Applicants filed an Assignment from Mario Baldi for Patent No. 6,272,131—attached as **Exhibit D** (3 pages).

Applicants were advised by Examiners that prosecution of this application could not proceed until the petition under 37 CFR 1.324 was decided by the Office; as the question of inventorship was the only obstacle to this application's continued prosecution. Applicants repeatedly called Examiners and the Office of Petitions to advance the prosecution of this application, but the Office offered no response other than to state that there was nothing that could be done by the Examiners or Applicants until the Office acted on the afore-mentioned

Petition under 37 CFR 1.324 filed for Patent No. 6,272,131. Applicants' respectfully submit that the delay was properly interpreted as "unavoidable."

Senior Petitions Attorney cites case law: "It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present."

In fact, the U.S.P.T.O. was undergoing major changes during the time that the Petition under 37 CFR 1.324 was filed: it was in the midst of moving its equipment and personnel to the new facilities in Alexandria. A certain amount of confusion at the Office was unavoidable. The move began in 2003 and was not completed until 2005. Applicants' respectfully submit that the Examiners' inability to locate the Petition, the Office of Petitions' inability to locate the Petition, and the Office's inability to timely process the Petition were all unavoidable. The postcard date-stamped January 6, 2006 from the U.S.P.T.O. stated that a request for a Certificate of Correction (instead of the Petition) had been received for Patent No. 6,272,131—this mistake was unintentional, avoidable and understandable. However, Applicants respectfully submit that they should not be penalized for the U.S.P.T.O.'s unavoidable, unforeseen faults and imperfections. Decisions on reviving abandoned applications on the basis of "unavoidable" have been accorded a large degree of discretion standard in determining if the delay was unavoidable:

The test of whether the delay is unavoidable is applicable to ordinary human affairs, and requires no more or greater care or diligence that is generally used or observed by prudent and careful men in relation to their most important business." Determinations by the PTO with regard to whether or not a delay was unavoidable "must be accorded a large degree of discretion." R.R. Donnelley & Sons Co. v. Dickinson, 123 F.Supp.2d 456, 57 U.S.P.Q.2d 1244, 1247 (Ill. 2000).

What the record, in fact shows, is that Applicants have made appropriate and diligent actions to ensure that a proper and timely response was submitted to the U.S.P.T.O. Filing an RCE would not have been an appropriate course of action, because at most, Applicants would have gained three months time to wait for the afore-mentioned Petition to be processed by the Office; at which time, the Office was unavoidably unable to process the Petition in a timely manner through the unforeseen fault or imperfection of the U.S.P.T.O and its instrumentalities.

PATENT APPLICATION
Serial Number: 09/535,831
Attorney Docket Number: SYN 1756

Filing an RCE would have resulted in another Final Rejection. The only way for Applicants to advance the prosecution of Serial Number 09/535,831 was to prosecute Patent No. 6,272,131; which they did.

It is thus respectfully submitted that the Dismissal of Applicants' Petition under 37 C.F.R. 1.137 be withdrawn and the Petition under 37 C.F.R. 1.137 should be allowed. By this Renewed Petition under 37 C.F.R. 1.137, all bases of objection and rejection have been traversed and overcome; the Application should be revived; and the Final Rejection is improper and should be withdrawn. Applicants respectfully submit that the application, including the specification description, claims and drawings are in proper form for allowance.

The Director has already been authorized to charge any additional fees and credit any overpayments during the pendency of this application to Sitrick & Sitrick's Deposit Account Number: 501166. No additional fee is due.

The Examiner is invited to communicate directly with the undersigned via phone as would be of assistance to expediting prosecution of this matter.

Respectfully submitted,
